DETAILED ACTION

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 9 and 10, the phrase "said length of gutter", is indefinite, as it does not specify whether it refers to the first or second length of gutter.

The phrase "without requiring a connector member" appears to be misdescriptive, as the folding tabs shown and described in the disclosure are connector members, and there is no disclosure as to nesting the ends of the gutters without the use of the connectors. As a result, claim 2, now contradicts claim 1 in setting forth the locking tabs.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1, so far as definite, is rejected under 35 U.S.C. 102(b) as being anticipated by either Koch or Basista.

Both Koch (figs. 1,3) and Basista (fig.1) disclose gutters in which the ends thereof overlap and nest within one another.

Note that one end may nest within the other before a connector is applied.

Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over either Koch or Basista in view of Andersson.

To have utilized a sealant between the ends of the overlapped gutter portions, so as to prevent leaking and provide a more secure engagement, would have been an obvious modification to one with ordinary skill in the art, as such is shown to be conventional by Andersson (fig. 6).

Claim 2-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 6-10, 12-14 and 16 are allowed.

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory

action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
